

## SENIOR AIR QUALITY ENGINEER/SCIENTIST

### OPPORTUNITY SUMMARY

DiSorbo Consulting, LLC is a Texas focused Consulting Firm that specializes in traditional environmental consulting and services a wide range of industrial clients and consists primarily of senior technical staff with offices in Houston and Austin. DiSorbo conducts business with Honesty, Integrity, and Respect, never compromising the safety of our employees or clients.

DiSorbo is currently seeking air quality professionals with varying levels of experience for its Houston and Austin offices. The positions are a part of a team who assists industrial clients in establishing and maintaining compliance with state and federal air quality regulations.

This senior-level position is an excellent opportunity to utilize your passion for engineering/science and your valuable experience working on civil/environmental engineering projects in a diverse range of service areas.

### PRIMARY RESPONSIBILITIES AND DUTIES

Ability to work directly with industrial clients and perform engineering and/or scientific tasks associated with the services we provide, which may include the following types of projects:

- Assist industrial clients in establishing and maintaining compliance with state and federal air quality regulations.
- Prepare and assist in preparing initial, amendment, and renewal New Source Review permit applications.
- Prepare and assist in preparing initial, revision, and renewal Title V permit applications.
- Prepare and assist in preparing permit by rule (PBR) documentation and/or registrations.
- Perform air quality and environmental compliance tasks, including auditing, compliance report preparation, and onsite client support.
- Perform Air Quality Dispersion Modeling.
- Mentor junior staff in all aspects of a project.
- Perform project management, including budget management, client advocacy, quality control, and scheduling.
- Business development including attending tradeshow, presenting proposals, and maintaining client relationships.

### EDUCATION AND EXPERIENCE

- Bachelor's degree or Master's degree from an accredited institution in Engineering (civil, mechanical, chemical, petroleum, or environmental preferred) or Environmental Sciences.
- 10+ years of progressive experience in industry or the consulting field.

### SENIOR AIR QUALITY ENGINEER/SCIENTIST (Continued)

- Certification as professional engineer in Texas preferred. Ability to be certified in other states is desirable.
- Advanced Clean Air Act permitting and compliance experience.
- Strong attention to detail with excellent analytical and judgment capabilities.
- Ability to work independently, supervise and mentor staff, and manage engineering task assignments and special projects simultaneously.
- Strong verbal and excellent written communication skills.
- Solid organizational and time management skills.
- Self-disciplined/motivated individual who also works well in a team environment.
- A positive attitude and willingness to learn.
- Unwavering personal integrity.
