

## **SENIOR WATER QUALITY ENGINEER/SCIENTIST**

### **OPPORTUNITY SUMMARY**

DiSorbo Consulting, LLC is a Texas focused Consulting Firm that specializes in traditional environmental consulting and services a wide range of industrial clients and consists primarily of senior technical staff with offices in Houston and Austin. DiSorbo conducts business with Honesty, Integrity, and Respect, never compromising the safety of our employees or clients.

DiSorbo is currently seeking water quality professionals with varying levels of experience for its Houston and Austin offices. The positions are a part of a team who assists industrial clients in establishing and maintaining compliance with state and federal water quality regulations.

This senior-level position is an excellent opportunity to utilize your passion for engineering/science and your valuable experience working on civil/environmental engineering projects in a diverse range of service areas.

### **PRIMARY RESPONSIBILITIES AND DUTIES**

Ability to work directly with industrial clients and perform engineering and/or scientific tasks associated with the services we provide, which may include the following types of projects:

- Drainage studies.
- Wastewater treatment system evaluation/conceptual design.
- Water supply planning.
- Due diligence activities.
- Prepare and assist in preparing Spill Prevention Control and Countermeasures Plans.
- Mentor junior staff in all aspects of a project.
- Perform project management, including budget management, client advocacy, quality control, and scheduling.
- Business development including attending tradeshow, presenting proposals, and maintaining client relationships.

### **EDUCATION AND EXPERIENCE**

- Bachelor's degree or Master's degree from an accredited institution in Engineering (civil, mechanical, chemical, or environmental preferred) or Environmental Sciences.
- 10+ years of progressive experience in the consulting field.
- Certification as professional engineer in Texas preferred. Ability to be certified in other states is desirable.
- Experience in drainage evaluation design and/or wastewater treatment, particularly in the industrial setting is desirable.
- Strong attention to detail with excellent analytical and judgment capabilities.

**SENIOR WATER QUALITY ENGINEER/SCIENTIST (Continued)**

- Ability to work independently, supervise and mentor staff, and manage engineering task assignments and special projects simultaneously.
- Strong verbal and excellent written communication skills.
- Solid organizational and time management skills.
- Proficiency in Microsoft Word, Excel, & Outlook.
- Self-disciplined/motivated individual who also works well in a team environment.
- A positive attitude and willingness to learn.
- Unwavering personal integrity.
